The Homeovitality system uses highly diluted DNA molecules with precise sequences to target genes that produce the body's natural proteins that have been proven to promote health as well as protect against and resolve many diseases.

HOMEOVITALITY

microDNA remedies for optimal health.

Homeovitality is an entirely new concept in health promotion. It takes advantage of new "cutting-edge" scientific discoveries to help everyone stay as healthy as possible and enjoy different forms of nature's super-health, better.

Natural super-health is the highest possible level of health and disease resistance that can be achieved naturally.

Homeovitality has been developed as a safe and natural way to help everyone to enjoy natural super-health and stay healthy.

"Homeovitality Super Memory/IQ is enabling me to recall facts and figures faster than I have been able to do in years."

T.A., UK

"I suffered from osteoporosis. I have managed to lose 2.5Kg in just over 4 weeks, with no extra work in my exercise regime."

Susan, Canada

"I used a bottle of Super Heart. Over a period of around 3 months, my BP began to become more normal, around 140 bp."
